Hanumanth Raghavendra Boienpally

Full-Stack Developer | Java | Spring Boot | React

raghavendra.boienpally@gmail.com | 7207031246 | LinkedIn | GitHub | Hyderabad, Telangana

Summary

Full-stack developer (MCA, 2026) interning at Winfo Solutions, building secure web applications with Java, Spring Boot, React and PostgreSQL.

Experience

Winfo Solutions — Intern, Technology Delivery *Aug 2026 - Present*
Build approval-workflow prototypes with Node.js and PostgreSQL (multi-database setups, role-based access, audit logs, notifications); set up and migrate cloud-hosted databases.

Kalyani Rafael Advanced Systems — Intern *Dec 2021*
Worked on a DRDO project: assembled pulse oximeters, deployed Python code, and handled testing and packaging.

Projects

Trackly – Behaviour-Based Productivity System Live Demo
Full-stack productivity platform: React + TypeScript frontend, Spring Boot (Java 21) core API and a Node.js insights service joined by a transactional outbox on PostgreSQL. Explainable daily score from tasks, habits and focus time, with coach cards, weekly review and Socket.IO live sync. JWT with rotating refresh tokens and theft detection (fixed a lost-response and multi-tab logout bug); Capacitor Android app. 120+ automated tests and GitHub Actions CI (Playwright end-to-end, Docker builds). Deployed on Vercel, Render and Neon.

EMS – Full-Stack Employee Management System Live Demo
Full-stack HR platform (React, Spring Boot, PostgreSQL) with 49 REST endpoints across 10 tables for employees, projects, attendance and leave. Spring Security + JWT with role-based access, audit logging and Flyway migrations; fixed CORS preflight failures caused by Spring Security. Deployed on Vercel, Render and Neon; demo logins on the sign-in page.

Blind-Coder – Voice-Driven IDE for Visually Impaired Live Demo
Voice-operated, browser-based IDE that lets blind users generate, run and debug code entirely by voice. Built with React, Node.js, Web Speech API, Web Audio API, Pyodide and Gemini 3.5 Flash; reads code line by line, explains errors aloud and plays success/error tones.

Education

University College of Engineering, Osmania University — Master of Computer Applications (M.C.A), Computer Science *October 2024 - August 2026*
Grade: 8.8

A.V. College of Arts, Science, and Commerce — Bachelor of Science (B. Sc), Computer Science *September 2021 - August 2024*
Grade: 8.8

Sri Chaitanya Junior Kalasala — Intermediate, MPC *June 2019 - June 2021*
Grade: 9.6

Rock Woods High School — SSC *2018 - April 2019*
Grade: 9.7

Skills

Java: OOP, collections, multithreading

Spring Boot: REST APIs, Spring Security, JWT

JPA / Hibernate: ORM, Flyway migrations

JavaScript: ES6+, TypeScript, async programming

React: Redux Toolkit, Material UI, React Router, Tailwind CSS

Node.js: Express.js, REST APIs, Socket.IO

HTML & CSS: responsive design, Bootstrap

PostgreSQL: schema design, SQL queries

Python, C: programming fundamentals

Docker: containerization, Docker Compose

Cloud: AWS, Azure (learning)

AI & Voice: Gemini API, Web Speech API

Testing & CI/CD: JUnit, Playwright, GitHub Actions

Tools: Git, GitHub, Maven, Vercel, Render, Neon

SDLC: Agile, testing, deployment
